

# ULTRA<sup>®</sup> MAX II PLATINUM

Graco's top of the line Professional Airless Sprayers

**FastFlush.**

www.graco.com

## PLATINUM ADVANTAGES

- QuikReel<sup>™</sup> integrated hose reel. Start your spraying job faster and go home sooner without the hassles of hose handling.
- E-Control<sup>™</sup>, precise pressure control at the end of your hose. Fine-tune or shut down your sprayer from wherever you are spraying. Finer finish and reduced overspray.
- FastFlush<sup>™</sup>, super fast sprayer cleaning system.

Professional Airless Applications

# ULTRA<sup>®</sup> MAX II PLATINUM

Electric Paint Sprayers for Larger Residential and Commercial Projects

The Ultra<sup>®</sup> Max family is Graco's most popular electric airless paint sprayer for professionals!

Ultra<sup>®</sup> Max stands for high performance and reliability. With over 25 years experience of proven quality and unmatched on-the-job productivity, professionals ask for Ultra's.

## The ULTRA<sup>®</sup> MAX II Platinum

Our latest flagship, the ULTRA<sup>®</sup> MAX II Platinum, is a combination of Graco's unwavering commitment for technical excellence and the drive to design solutions, exceeding professional painting contractor standards!

We have done the impossible and built-in even more performance, longer life and better user features. We strive to make your work easier and more comfortable, keeping you in good shape, even after a whole day of work at the jobsite!

### E-Control™

The wireless pressure remote control, attached to the hose, allows you to adjust pressure at any time without having to approach the unit. Robust, waterproof, solid design with 45 m reach.

### FastFlush.

### FastFlush™ + Heavy Duty Prime Valve

We did extensive research on how to decrease cleaning time and came to the following simple conclusion: to clean faster, you must run the pump faster. So that's what we did! The new FastFlush cleaning system runs the motor at a higher speed which results in high flow and faster cleaning. It's that simple!

### QuikReel™ Integrated Hose Reel

Special layout design. Roll out and up in a few seconds up to 90 m hose, giving an autonomy to spray in a range of 180 m without transporting the unit. Holds: 90 m (1/4") / 60 m (3/8")

ULTRA<sup>®</sup> MAX II 1095 PLATINUM

## Materials & Applications

The ULTRA<sup>®</sup> MAX II Platinum is the ideal unit for medium to large painting jobs, inside as well as outside! Your most reliable buddy for renovations, new construction, commercial and residential buildings, exterior facades, new housing projects, etc.

It handles most common tip sizes and heavier coatings with ease! The ULTRA<sup>®</sup> MAX II Platinum sprays perfectly acrylics, primers, emulsions, waterborne as well as solvent paints.

Watch our application videos at: <http://3.graco.eu.com>

### TiltBack™ Cart Design

Sprayer kick stand allows convenient, one person bucket change and facilitates cleaning and maintenance of your pump.

### WatchDog™

Increase the lifetime of your pump!  
The WatchDog system automatically shuts off the sprayer when the bucket is empty, avoiding excessive wear!

### Endurance™ Pump

Graco's proven and reliable piston pump technology with LongLife-V packings. QuickAccess™ intake valve to easily clean or clear debris.

[www.graco.com](http://www.graco.com)

## The smartest SmartControl-E™

The digital SmartControl-E continually monitors how you spray and adjusts the pump's functioning in less than one second. Even with multiple guns, there is no delay in waiting for your sprayer to catch up and to keep your spray pattern consistent.

This smart brain coordinates all electronic devices such as the FastFlush™ timer, WatchDog™, wireless pressure E-Control™, (life time) liter counter, error coding and pressure rating. Simple, just by one button.

## GOOD TO KNOW

### PROCONNECT™ — NO TOOLS PUMP REMOVAL SYSTEM

#### DOWNTIME COSTS YOU MONEY!

The ProConnect pump removal system makes it easy to swap Endurance™ pump fast and easy. In a few seconds, on the job site, without tools. Just like your car tyres. Keep a spare!

### L.O.K. (LOW OVERSPRAY KIT)

Did you know hardly 5% of outside facades are sprayed? Main reason: possible damage due to overspray.

Use the L.O.K. system, minimizing overspray to the limit and doubling the usability of your sprayer. With Graco's L.O.K. system, you can now spray almost all outside projects! Spray and roll, and save up to 50% time, using this innovative system.

[www.ofsbygraco.eu](http://www.ofsbygraco.eu)

### ! TIP

Use your L.O.K. system in combination with the E-Control, setting your pressure at the scaffolding to always spray under the best circumstances!
